I just need to know a couple of things. Need a SOW and cost estimate and explanation of what part is contracting dollars. I sounds like this one has environmental data being generated but COE has a QMP. However, Paula, you will need to review the QAPP as that is not a delegated authority. Just factor that in to the SOW. I will get started on it as soon as the Service Center clears the last amendment which just went through yesterday.

Jodi - Let Mary and I know if you got these emails. I'm in Silverton and will probably only check my email in the evening or early AM. Thanks.

Paula

Paula Schmittziel and Robin, (Robin - could you forward to Jodi Powell)

Per our conversation last Friday, I inquired about issuing a contract to a contractor, from funding that arrives on the EPA 8 "Generic" IA DW96954022. GOOD NEWS, see below, I CAN award a contract on these funds!!!

(Paula, on your below e-mail to Jodi and Robin, I does not appear Jodi Powell got it.)

Classification: UNCLASSIFIED

Caveats: NONE

Mary - Since the work for Upper Animas Watershed will be "pre" RI/FS and the future site-specific IA will be an RI/FS, the funds issued on a Work Authorization Form (WAF) from the Generic IA DW96954022 can be used for in-house and contract actions (the Direct Fund Cite Method will not apply to either the WAF or the future site-specific IA).

Thanks for the "heads-up".

Marvene,

I have reserved contract capacity for this work for EPA 8. They plan to set up an IA but for now want to get started under the EPA 8 "generic IA" DW96954022. This work is "pre" RIFS resulting in an RIFS. Can I award a scope to a contractor, for review and organization of all past data under the Generic EPA 8 IA or is the generic for in-house work only??

Subject: [EXTERNAL] Upper Animas Watershed and Future Work

Jodi & Robin - I spoke with Mary Darling, USACE this afternoon to let her know that we wanted to use

USACE and their contracting vehicles for the Upper Animas Watershed. I said that we were thinking about starting with a small "task order" on the generic USACE IA that the Region already has in place. This would allow the Region more time to prepare a larger more detailed scope of work this fall - after the completion of the fiscal year.

Mary mentioned that she wasn't sure that they could hire a contractor under that IA. I indicated that Jodi and Robin would be talking on Monday about how to manage this but that I would be on agency travel in Silverton next week and may not be available much. I will be back the following week (July 28th) but that may be when Jodi is out of the office.

Anyway, I wanted to be sure that you all had each other's contact information so things can proceed while I am gone.

Robin Coursen - 303-312 - 6695

Jodi Powell - 303-312- 6715

Mary Darling - 402-995-2116 (Omaha is 1 hour ahead of Denver)

Thank you.

Paula Schmittiel
